

The Lion of Judah

“Behold, the Lion of the tribe of Judah, the Root of David, has prevailed to open the scroll and to loose its seven seals.”

(Revelation 5:5)

NEW WORLD (DIS)ORDER

But concerning the times and the seasons, brethren, you have no need that I should write to you. ²For you yourselves know perfectly that the day of the Lord so comes as a thief in the night. ³For when they say, “Peace and safety!” then sudden destruction comes upon them, as labor pains upon a pregnant woman. And they shall not escape. ⁴But you, brethren, are not in darkness, so that this Day should overtake you as a thief. ⁵You are all sons of light and sons of the day. We are not of the night nor of darkness. ⁶Therefore let us not sleep, as others do, but let us watch and be sober. (1Thessalonians 5:1-6)

The fourth beast shall be a fourth kingdom on earth, which shall be different from all other kingdoms, and shall devour the whole earth, Trample it and break it in pieces. The ten horns are ten kings who shall arise from this kingdom. And another shall rise after them; he shall be different from the first ones and shall subdue three kings. He shall speak pompous words against the Most High, shall persecute the saints of the Most High, and shall intend to change times and law. Then the saints shall be given into his hand for a time and times and half a time. (Daniel 7:23-25)

PART III – WEATHER WARS

One of the **primary ways** the **New World Order (NWO)** folks intend to bring about **global governance** is through **weather manipulation**

- **Global warming is real**, but it is **not** of nature or of God
 - It has been **manufactured** by the NWO to create a **global crisis**
 - This is part of their **overall strategy** of “**controlled chaos**” in which the elite leaders of the NWO are seen as the only ones who can bring **order** to such **global problems**
- This has already given rise to the **global cause** of “**environmentalism**” and such **global pacts** as the **Kyoto Protocol** which seeks to reduce the emissions of “**greenhouse gases**” that purportedly are the cause of global warming
 - The **devil** always takes a **partial truth** and **tacks on a lie** so that it **seems reasonable**, and such gases have indeed **changed** the **earth’s atmosphere** but not to the extent promoted by the NWO
 - But the **Bible** says, “*There is a way that **seems right** to a man, but its **end** is the way of **death**.*” (Proverbs 14:12)

In fact, it is through the use of **HAARPs**, **ELFs** and **GWEN** that the NWO has b the earth’s ionosphere, **created global warming**, caused the **ozone hole** in the atmosphere, and are now **fostering** and **steering hurricanes** such as Katrina, Rita and Stan

- These are **towers** built around the globe that send **low frequency energy waves** into the **atmosphere** to **heat** it up, to **bounce waves off** it to **affect** our **weather** – and, to **cause earthquakes** as well
 - Of course, the NWO says these are for **other purposes**, such as to communicate with submarines
 - However, there is **substantial evidence** to the contrary

Reputable Sources

Those who question or challenge the NWO are labeled “**conspiracy nuts.**” Any **evidence** is explained away with **plausible reasons** (usually as classified military secrets) and all doubters are **ridiculed**

- So, let’s take a look at some evidence from so-called **reputable sources** such as the Wall Street Journal and the New York Times
 - June 5, 1976: The **New York Times** described the great **earthquake** that destroyed Tangshan **China** and killed 650,000 people as: “Just before the first tremor at 3:42 am the **sky lit up like daylight**. The multi-hued lights, mainly red and white, were seen up to 200 miles away. **Leafs** on many trees were **burned to a crisp** and growing **vegetables** were **scorched** on one side as if by a **fireball.**”
 - These electrical effects are tied to **electromagnetic plasma a ball lightning** which result from such **low frequency HAARP transmissions**
 - October 2, 1992: The **Wall Street Journal** reported about a **Russian company** called **Elate Intelligent Technologies, Inc.**” that sells **weather control equipment** by using the advertising slogan, “**Weather Made to Order.**” The articles states, “Elate is capable of **fine-tuning the weather patterns** over a **200 square mile area.**” The article also went on to quote the **Director of Elate** as claiming that **Hurricane Andrew** could have been **reduced** “into a **wimpy little squall.**”
 - 200 miles is the same **effective range** of the **GWEN towers**
 - November, 13, 1997: The **Wall Street Journal** reported: “**Malaysia’s war on smog** is about to get a new twist. The government wants to **create man-made cyclones** to **scrub away the haze** that has plagued Malaysia since July. ‘We will use special technology to **create an artificial cyclone** to clean the air,’ said Datuk Law Hieng Ding, minister for science, technology and the environment. They did and it did.

In addition, there is evidence of weather control capability within the **United Nations** in a **weather control treaty**

- Would such a **treaty exist** if these **capabilities didn’t exist**? Might we not prove that automobiles exist without every seeing one simply by **studying the laws** pertaining to such vehicles?
 - This **weather control treaty** is entitled: “Convention on the **Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques** Approved by the General Assembly of the United Nations on 10 December 1976”
 - The treaty states: “Guided by the interest of consolidating peace and wishing to contribute to the cause of **halting the arms race**, and of bringing about the general and **complete disarmament** under strict and effective **international control**...Recognizing that scientific and **technical advances** may open new possibilities with respect to **modification of the environment**... Recognizing, however, that military or any other hostile use of such techniques could have effects **extremely harmful to human welfare**... Desiring to prohibit effectively military or any other hostile use of environmental modification techniques in order to **eliminate dangers** to mankind from such use, and affirming their willingness to work towards the achievement of this objective... Each state Party to this Convention **undertakes not to engage in military** or any other **hostile use of environmental modification techniques** having widespread, long-lasting or severe effects as the means of destruction, damage or injury to any other State Party... **Environmental modification techniques** refers to any technique for changing – through the **deliberate manipulation of natural processes** – the dynamics, composition or **structure of the earth**, including it biota, lithosphere, hydrosphere or of outer space.”
 - As is their intention, the **NWO** folks **prohibit nations** from doing such things and then **take over** the technology for their own purposes

Not only is there evidence within the United Nations, but also within **our own U.S. government**:

- On October 17, 1977 there was a **hearing in Congress** by the **Committee on Science and Technology** that was briefed by the “**Weather Modification Advisory Board**” (WMAB) that was chaired by Harlan Cleveland, who has a long history of trying to establish a New World Order
- Earlier, in 1958, a **White House advisor on weather modification** was quoted as saying the **Defense Department** was studying ways to “**manipulate charges of earth and sky and so affect the weather.**” The Defense Department? Of course, since the military establishment takes over technology they think will serve military purposes, offensively or defensively.
 - Imagine that! We had a **weather modification department** within our own government. Where did it go? Look no further than the NWO

Technological History of ELF, HAARP & GWEN

Here’s a **brief history** of the **technology** that now serves the NWO’s purposes of creating “**controlled chaos**” in the **environment**:

- 1886-8: **Nikola Tesla** invents a system of Alternating Current (AC) power transmission at **extremely low frequency (ELF)**. In 1905, he received **U.S. Patent #787,412** to “Transmit Electrical Energy Through Natural Mediums.” He discovered that the earth vibrates to a frequency of 7-8 Hertz. Thus, artificially manufactured energy waves at that frequency can travel through and alter natural mediums.
- 1924: Scientists confirm that **radio waves bounce off the ionosphere**, an electrically charged layer of the atmosphere starting at an altitude of 50 kilometers (or, about 30 miles)
- 1938: Scientists propose to **light up the night sky by electron gyrotron heating** from a **powerful transmitter**. Notice the word “**heating.**” Sending such energy waves into the atmosphere heats it up. **Global warming** here we come.
- 1940: Tesla announces “**death ray**” **invention** and the military announces the capability to create a **defense shield** over our country by aiming these **electron heaters** correctly.
- 1961-62: U.S.S.R. and U.S.A. create **many electromagnetic pulses (EMPs)** in the atmosphere, and 300 megatons of nuclear devices **deplete the ozone layer by about 4%**. Ozone depleted? **Ozone hole?** Now we know where it came from.
- 1960s: Existence of **ELF (Extremely Low Frequency) towers** confirmed by **U.S. military** which says they are needed to **communicate with their submarines** in a way that would be secure from enemy attack, which is true. However, another **partial truth**. They have **many other uses** as well.
- 1975: **U.S. Senator Gaylord Nelson** forced the Navy to **release research** showing that **ELF transmissions** can **alter human blood chemistry.**”
- 1975: **U.S. Senator Pell** urges that **weather and climate modification work** should be **overseen** by a **civilian agency** answerable to the U.S. Congress. It **didn’t happen** for classified military reasons.
- 1985: **Bernard J. Eastlund** applies for **patent** “Method and Apparatus for **Altering a Region in the Earth’s Atmosphere, Ionosphere and/or Magnetosphere**”
- 1986: U.S. begins **building a network of GWEN (Ground Wave Emergency Network) towers**, each to generate very low frequency (VLF) waves – and advance over ELF capabilities
- 1993: GWEN towers used to **create rain for 40 days/nights** in the **U.S. Midwest** right where the rains came down in Biblical proportions (oh how the devil likes to mock God)
 - These towers **now exist** right along the **San Andreas fault** in California and other **strategic locations**

- 1994: **Military contractor E-Systems** buys **Eastlund patents** from APTI to build the **biggest ionosphere heater in the world**, the High-frequency Active Auroral Research Project (**HAARP**)
 - These now exist in **Gakona, Alaska** with over 4 acres of **360 towers**, each 72 feet tall (we have pictures of them for those who are interested)
- 1994: **Congress freezes the funding on HAARP** until planners increase the emphasis on **earth penetrating tomography** uses and for nuclear counterproliferation efforts. Earth penetrating uses? **Create earthquakes?**
- 1997: **Secretary of Defense William Cohen** stated at the Conference on Terrorism, Weapons of Mass Destruction and U.S. Strategy, University of Georgia, April 28, 1997: “Others are engaging even in eco-terrorism whereby they **can alter the climate, set off earthquakes, volcanoes** remotely through the use of **electromagnetic waves**. So there are plenty of ingenious minds out there that are at work finding ways in which they can wreak terror upon other nations. **It’s real**, and that’s the reason why we have to intensify our efforts, and that’s why this is so important.”
- 1998: **Completion date of the HAARP towers**. Is it a coincidence that we have had the most **unusual and severe weather** since then?

Weather Evidence

These **unusual weather events** include the **unexplainable and bizarre patterns** of hurricanes over the past few years. This has caused a **respected Idaho TV meteorologist** to develop a web site at www.weatherwars.com This will lead you to other websites. Also check out www.cuttingedge.org

- **Katrina and Rita** both took **unexpected, last minute “turns to the right”** and delivered **maximum hits** on our **oil production and refining capabilities**. Even the recent **Stan** formed right off the Yucatan Peninsula and took aim at **Mexico’s oil platforms** from which most of the **oil goes to the U.S.** This is in keeping with the **NWO strategy or crippling the U.S. economy** in order to **eliminate our superpower status and implement emergency law and greater government control**
- Last year and this year we saw **hurricanes off the Carolina shore twist, turn, and circle around inexplicably**. Most likely **steering practice**.
- Also last year we saw one hurricane **hit the Florida panhandle, continue through the entire U.S.** on a northeasterly track, **emerge into the cold northern Atlantic** (cold is not inductive to hurricanes), **circle back around** into the southern Atlantic, **back into the Gulf of Mexico and hit the Panhandle again as a tropical storm**. This simply **defies nature**.

The Future

What does this **mean to us?** **Eco-terrorism** has **begun** against the U.S. by the **NWO**. Our **economy** will be **crippled**, since no one at high levels is **aware** or has **enough clout** to change the **NWO plans**.

- We must begin to **prepare** for a **loss** of our **easy lifestyle**. **New Orleans** is not an **aberration**, but rather a **symbol of what’s to come** on a wider scale. **Coastal areas and ports** are the **initial targets**.
- **Christians** need to go into **survival mode now** so that we will be able to **continue to minister** and save the lost during the **coming difficult times**. Stock up on **emergency supplies** now. The **“mark of the beast”** is **not all that far off**.
- **Christians** also need to begin **speaking out** against the **NWO** to not only **expose** it, but also to **show unbelievers** that this is all **playing out** just as the **Bible prophesied** thousands of years ago.
- Can we **stop the NWO**, the **one-world government** prophesied in **Revelation and Daniel**? No. But we can **continue** to try and **save as many people as possible**. It is time to get **bold and radical**. The **window of opportunity** is **closing fast**.
